

# Bamboo Jersey

Rayon Bamboo is softer than the softest cotton and has a natural sheen to the surface. Protective Bamboo fiber contains a natural agent that prevents the growth of bacteria, thus keeping you odour-free. Bamboo apparel is comfortable, more breathable than cotton, fast drying, moisture-wicking and thermal regulating. It will keep you cooler in the summer and you can layer it to be warmer in the winter. It is the perfect fabric choice for those sensitive to allergens. Bamboo is inherently organic. It is grown without pesticides or chemicals, requires little water and is 100 % bio-degradable. It absorbs a very high percentage of carbon dioxide. It has been found to show no reduction in its antibacterial nature, even after 50 washes. Preshrunk so there are no surprises when washed.
