“The Icing on the cake”

Accessories should not be underestimated. They compliment any of the fabric programs or are great on their own. The accessory program offers you the logo placement at affordable prices when volume at a budget are a must. Flexibility is the key. The same principles that make us successful with our custom programs allow us to provide a great range of options with the accessories. Headbands, Key Cuffs, Buffees, Phone Wallets, Mitts, Toques etc. usually would be difficult for various logo techniques. Not so for us. Even though they are small in size, we can logo them in panels before they are sewn into finished items. The options then are endless. **A powerful image can come in a small package!**
