BAMBOO DOUBLE LAYERED REVERSIBLE FACE MASKS

BAMBOO Jersey- 70% Bamboo 25% Cotton 5% Spandex

WASHABLE, REUSABLE, WICKING, THERMAL REGULATING, ANTI-BACTERIAL, UV PROTECTIVE.

These properties remain, even after laundering. Tested up to 50 washes.

THE most comfortable form fitting mask

This 2-ply design is reusable and washable. Deep stretch provides a clean and secure fit with no binding or chafing.

Bamboo is naturally anti-bacterial, thus stopping odor producing bacteria from growing, allowing it to remain fresh smelling.

Bamboo is highly breathable. It stretches more than cotton and wicks away moisture 3 to 4 times faster.

Due to its softness and durability, it is the material of choice to be in direct contact with the skin. The structure of the Bamboo fibers make our masks more breathable and thermal regulating than others.

Our bamboo fabric is pre-shrunk, easy care – Washer drier friendly. It doesn't fade or pill even after repeated washes

Fabric Weight:

220 grams – 7.76 oz. linear yard

Logoing Techniques:

3M Hi – Visibility / Heat Press

Mask Size:

9.5" wide x 6.5" contoured to fit
